

Scientific Workshop Training 2015 – Ma2 Presentations (April 24)

Presentation lasts 10min, followed by 5min of questions, Vesale 025.

8:40 – Introduction

8:45 – Anis HOUAMED - Master 2 BBMC

The modulation impact of the acetaminophen detoxification pathways in mice. (J.-M. Collet)

9:00 – Valentine CYRIAQUE – Master 2 BOE

Evolution and comparison of sedimentary microbial community plasmidomes under metal stresses.
(R. Wattiez & D. Gillan)

9:15 – Nathalie BOUCHY - Master 2 BOE

Ecology: conceptual difficulties in students of first year bachelor of life science. (X. Simon)

9:30 – Edwicka GREGOROWITZ - Master 2 BOE

Sulfated biopolymers in adhesives secreted by marine invertebrates. (P. Flammang)

9:45 – Tamara NICODEME - Master 2 BOE

Feeding patterns and analysis of food capture and transport kinematics in terrestrial turtles.
(P. Rasmont & V. Bels)

10:00 – Break

10:15 – Amélie URBAIN - Master 2 BOE

Relation between escape and predation behaviours and muscle fiber type in different models of lacertid. (D. Nonclercq & V. Bels).

10:30 – Baptiste MARTINET - Master 2 BOE

Conservation of boreo-alpins bumblebees: Integrative taxonomy and extreme climatic risk. (P. Rasmont)

10:45 – Mathilde LEFEBVRE - Master 2 BBMC

Characterisation of the main proteins involved in the adhesion of the sea star *Asterias rubens*.
(E. Hennebert & P. Flammang)

11:00 – Sandra BOUCHY - Master 2 BBMC

Galectin-1: a new potential biomarker for thyroid cancers. (S. Saussez)

11:15 – Geoffrey VAN WYNEN - Master 2 BOE

Analysis of holothurian saponins impacts on marine organisms. (I. Eeckhaut)

11:30 – End of Session – Deliberation
